

Santhosh B

Software developer at EvolTech
(SDE)

Professional Goals

Building full stack Web applications and exploring Microservices. Enhancing machine learning projects with accuracy and time complexity.

Email:

bsanty2001@gmail.com

Address:

No: 6-'A', Rc Park, Naganathan Street,
Ram Nagar, Ambattur, Chennai-
600053
Tamilnadu, India.

Languages

English,
Tamil,
Hindi,
Telugu.

Hobbies :

- Music composing,
- Listening to Yanni piano instrumentals,
- Researching new technologies.

Extra curricular

- Carnatic and Western music composer.
- Experienced by composing and mixing more than 10 independent album songs.
- Scored background for 2 OTT short films certified by International OTT Film Festival.
- Performed in live stage shows as a keyboardist.

Hackathons and projects:

- 1) Developed projects by integrating faucet with IOT(Bolt IOT and Arduino uno) and full stack development at Aimbighathon (October 2019) ,
- 2) Worked with Matlab for SAR (Synthetic Aperture Radar Detection) imagery in SIH (Smart India Hackathon 2020),
- 3) REC HACKOVERFLOW 2020 (February), Smart city with two unique ideas integrating with full stack developmental analysis.
- 4) Presented water conservation prototype with SRS documentation for Mhrd innovation cell.
- 5) Worked with NFC technology for advanced transportation in Hackerrupt at IITM Research Park 2020.
- 6) (SRM Hackathon March 2021) Traffic density control and advanced ambulance monitoring traffic signals using Python Image Processing libraries (tesseract, opencv, numpy and pillow).

Academic History

Sri SaiRam Institute of Technology
Bachelor of Engineering (BE)
Computer Science & Engineering

I currently pursue my BE, CSE degree along with paper submissions and project works, innovation developmental ideas and adapting new technologies.

SETHU BHASKARA MATRICULATION HIGHER SECONDARY SCHOOL

- 10th graduation on 2017 with 94%.
- 12th graduation on 2019 with 86% .

SkillSet

- - C, C++, JAVA,
- PYTHON, HTML, CSS,
- Mysql, Javascript,
- Typescript
- - React js, Angular js,
- IONIC framework
- - AWS, Mongoddb,
- Firebase
- - Artificial Intelligence
- - IOT, raspberrypi,
- Arduino
- - Machine learning
- - SDLC management
- - Data structure
